The cold day
is going away
And green spring
Is coming today.

The snow is falling to the ground
The kids are running around.

I'm swimming
and funny.

No hot air
Snow is falling
On the chair.

The Spring Has Come

After a long winter, the spring has finally come. The sun is shining and it is getting warmer and warmer. We will be able to take off our winter coats and put on our jackets, and soon we will just wear T-shirts. But it will not be only our clothes that will change, flowers will start to bloom and all of the

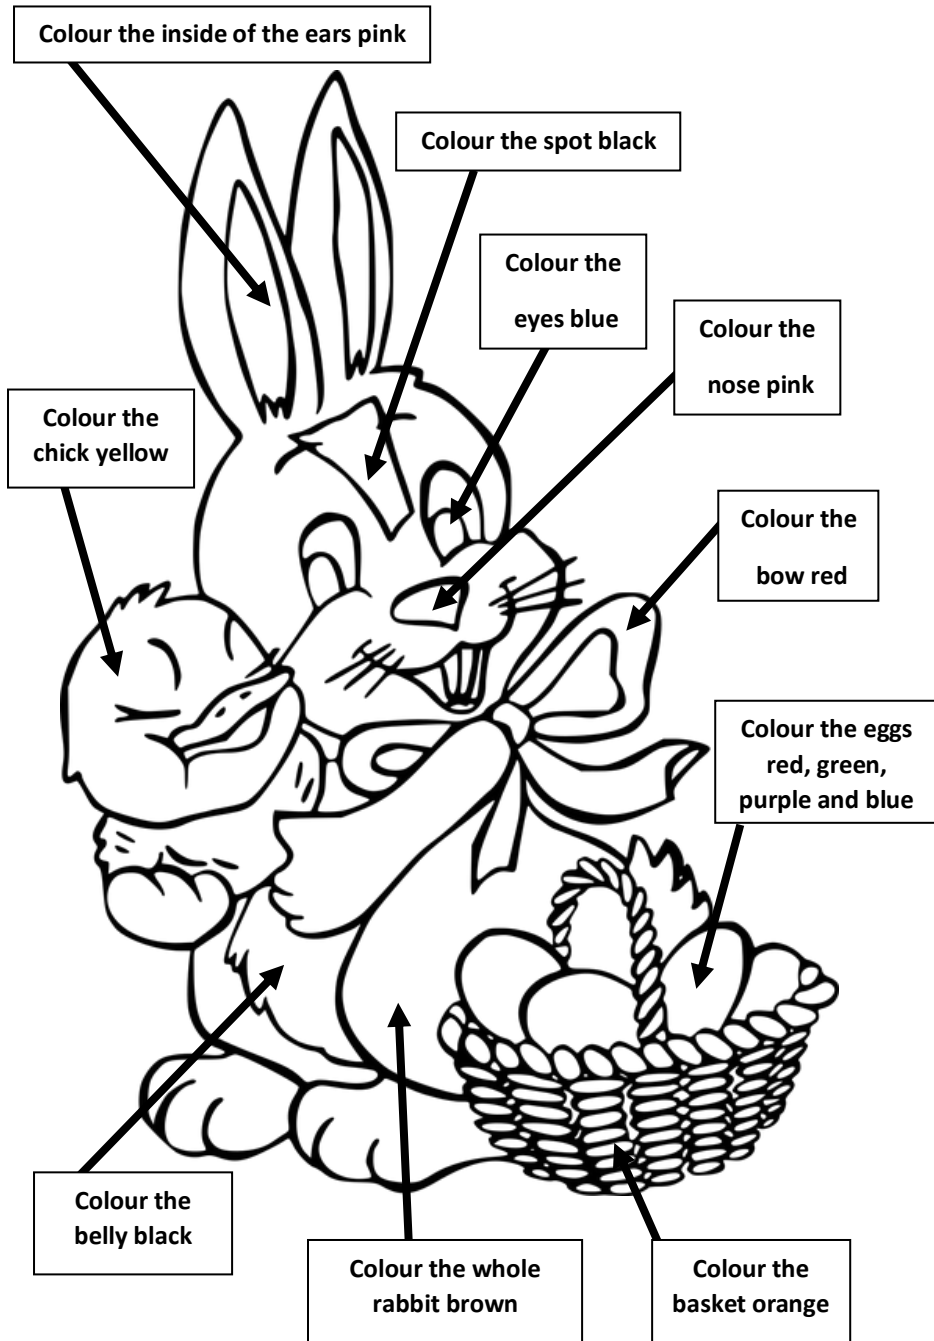

other plants will come to life. It will be nice to take a walk and admire the nature. Or we can ride a bicycle and enjoy the fresh air that comes with spring. Overall, it will give us more energy and happiness, compared to the dark, grey days of winter. Another nice thing about spring is that we will celebrate Easter. Easter is a Christian holiday that reminds us of the resurrection of Jesus Christ. However, Easter traditions differ from country to country. In the Czech Republic, it is all about decorating eggs and whipping girls with a braided whip

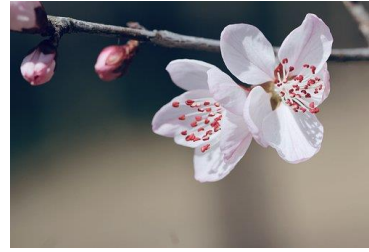

called *pomlázka*. On the other hand, in English speaking countries, it is more about hiding chocolate eggs in the house or in the garden and going on an egg hunt. No matter what though, Easter is all about having fun and enjoying the spring atmosphere.

Thanks to Mrs. Zíková and the students of 4.B! ☺
